

# Barkonsult

Barkonsult imports, produces and distributes professional bar equipment and cocktail tools from all over the world. We've been in the business for 40 years and today we are active in four markets – Sweden, Norway, Denmark and Spain.

We have everything from bar tools and glasses, to drink mixers selected spirit brands and machines.

# GLASSWARE

**JACKIE DOF 33,6CL RCR**  
EPD: 5375456

A beautiful and high-quality crystal glass from RCR. The classic design with thick walls and strong base is complemented by the fine details on the sides. Enjoy your spirits on the rocks, cocktails and soft drinks.

**JACKIE HI-BALL 36,5CL RCR**  
EPD: 5377148

This stylish Highball crystal cut glass is a home bar essential for fans of longer cocktails.

The shape of a Highball glass allows bubbles from mixers to slowly rise up and the ice to stay cool, maintaining a slower dilution rate.

# NEW BRAND. SAME GLASS.

Onis is the new brand of two European glassmakers, who previously sold their glassware under the Libbey brand. In 2022 they split as a European entity from US-based Libbey Glass LLC to continue to make and sell their iconic glassware under their own new, but historic brand name, Onis.

Continuing to design outspoken glassware with a statement to bars, hotels, and restaurants, inspiring professionals to create value to drink creations. All details count when creating that ultimate drinking experience, where the glass is the finishing touch.

# WHAT SETS ONIS APART

The product has an elegant thin yet robust stem. Proof that elegance can go hand in hand with sturdiness.

The colour is embedded in the mass of the glass during its production, and not applied by an after-process, and therefore fully resistant to dishwashing and scratching.

Glassware designed to bring out maximum aroma and flavour for increased quality perception in serves.

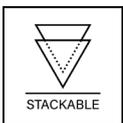

This product showcases a larger footplate for extra stability, granting an additional elegance to the piece. It is the perfect balance between form and functionality.

The product has a very fine polished rim for an elegant look and feel, and refined drinking experience.

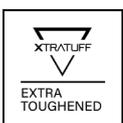

In the Onis collection, we can find the most iconic glasses, with a timeless and striking design that many know only by the silhouette, such as Hobstar, Flashback and Speakeasy.

The product is designed to be stacked for space saving purposes.

The Glassology Contest challenges professionals working in the Drinks Industry, to develop and create their ultimate glassware design. As a result of that, some of our product ranges find their roots in this competition, including: The Gats, 1924, the Tulip Punch Bowl, and Divergence.

This special thermal after-process strengthens the upper portion of the glass, the area most vulnerable to breakage. It increases the resistance to thermal and mechanical shock which results in remarkably durable glassware with prolonged service life.

**FORTIUS VINGLASS**

# Monin's versatile tea range

The Tea range from Monin are just as appreciated in the cold winter as on a hot summer day. Iced Teas satisfies the growing demand for natural, refreshing drinks. Indeed, this drink is the most consumed ready-to-drink beverage category. Since 2010, the market has grown by 44%. Following this trend, Monin has developed a full range made of Black, Green, and White Concentrates.

Le Concentré de Monin is less sweet than the syrup range. This reduced sugary rate varies depending on the flavours of the range, that are built on 3 basis: tea, citrus or coffee. The main objective of these concentrates is to reproduced a fresh ingredient, allowing less manipulation and as much authenticity.

The green and white tea concentrates are great bases that allow you to create an infinite array of "homemade" flavoured teas. The fruit teas contain a bit more sugar.

Original Iced Teas: Ready-to-use premix concentrates, flavoured bases, convenience and speed of execution.

Raw ingredient base: Less sugar. Brut ingredient/extract. Versatility and creativity. Hand-crafted beverages.

## CLASSICAL ICED TEA

30ml Monin Tea Concentrate

270ml water

Pour the Monin concentrate into a glass, add water, and stir. Garnish with fresh fruits.

# Three Cents

During the Great Depression in the USA, soda fountains were a mainstay of social life. People would walk into a pharmacy instead of a bar to order a Two Cents Plain (sparkling water), or sparkling water with flavoured syrup at the cost of Three Cents. Inspired by this story and the evolution of carbonation, three spirited bartenders utilized their bartending experience, scientific knowledge and expertise to create the perfect premium cocktail mixers with just the right amount of fizziness. And so the journey began.

Inspired by bartenders, for bartenders, Three Cents Premium Tonic & Soda Beverages were produced to be used as the ultimate mixers for cocktails and long drinks. Their all-natural substance and long-lasting fizziness soon elevated their reputation among consumers becoming a top soda beverage choice and a number one premium mixer for long drinks and cocktails. Three Cents was born out of the passion for cocktails. Four men of completely different backgrounds – Vasilis Kalatzis, Dimitris Dafopoulos, George Bagos and George Tsirikos decided to study, experiment and advance the production process of the original soda fountain machine.

After a long experimental process, the group managed to capture and sustain all the flavour with just the right amount of bubbles, and so the first Three Cents Greek premium beverages were introduced to the market.

# 10 years of the one and true Paloma

Originating from Mexico, the Paloma is a cherished long drink that's found a special place in the hearts of many. Recognizing its potential, Three Cents set out ten years ago to create an ideal companion for this beloved cocktail. The result was the Three Cents Pink Grapefruit Soda. With just the right amount of fizz, a gentle pink glow, and the refreshing essence of pink grapefruit, it's designed to complement the Paloma perfectly. This creation not only reinvented how we enjoy our favorite drink but also invited us to rediscover its joy. It's time now to honour the journey of our favoured Paloma, made even more memorable with Three Cents.
