## The Nordic Loop.

Most of our paper cups sold in the Nordic are manufactured in Finland from pure virgin paper board manufactured in the Nordic. And when consumption and cup recycling also takes place locally, a loop of good is created that we can all enjoy. Both you and your customer can rely on the quality and benefits that come with local manufacturing such as certified quality, delivery flexibility and comprehensive production transparency and sustainability.

The paper board we use is made from fibers that come from sustainably managed Nordic forest and is PEFC certified. The board is manufactured in Nordic with close distance from our manufacturing unit. A modern manufacturing unit that takes environmental issues into consideration from start to end and in between.

You are welcome to take a look at our facilities and process any time via this link. Welcome!

# Customer Portal.

Huhtamäki's new customer portal is open for you to have easy access to our products!

Would you like to get to know our products even better? We warmly welcome you to Huhtamäki's new customer portal. You can use the customer portal to get any product information and for making your orders. Choose the way that suits best for you and sign up now!

For more information please contact your local customer service. Please see contact details on back page.

# Embedding sustainability in everything we do.

## IT'S ALL IN THE DETAIL!

As an innovative business we are always looking at how to make changes to our packaging to make our customers' lives easier! Changes don't have to be big to make a significant difference.

## PROTECTING FOOD, PEOPLE & THE PLANET

Today, packaging plays a significant role in food safety and convenience. We are committed to making packaging more circular and we embed sustainability in everything we do.

Through our sustainable packaging solutions, we protect food, people and the planet, enabling wellbeing and convenience for people around the world.

## THE KEY TO UNDERSTANDING THE INNOVATIONS BEHIND THE PRODUCTS

Recyclable\*

Sustainable material

Ovenable

Ideal for delivery & eating in

Perfect presentation

Freezable

Leak proof

Microwaveable

Suitable for hot counters

Compostable

Plant based

Secure locking lids

Perfect fit to cups

Double wall

Recycled content

Stackable with lids

## CERTIFIED OPERATING SYSTEMS - THE BASIS OF OUR QUALITY

HUHTAMAKI FOODSERVICE NORDIC OY is committed to certified quality, environmental, hygiene and safety systems (ISO 9001, ISO 14001, BRC, ISO 45001).

With a certified operating system we want to show that we have defined framework and documented policies and that we take responsibility to evaluate and continuously develop our operations.

Granted certificates are proof that Huhtamaki is a reliable and a responsible partner.

A QUALITY SYSTEM helps to prevent errors, makes operations more systematic, production more homogeneous and thus improves customer satisfaction.

We have regular product quality control and suitable tests are used to find possible defective products already during production. The goal is to do things right at once!

THE ENVIRONMENTAL SYSTEM helps us to take active care of our environmental responsibility. We want to make packaging as environmentally friendly as possible.

## SUSTAINABILITY IS KEY

Raw materials sourced from sustainably managed PEFC certified forests.

Made from renewable materials with a Future Smart™ plant based coating.

Products do not contain any plastic content.

Manufactured using fiber or paper from renewable sources and industrially compostable according to EN13432.

The Swan label guarantees that the product is designed and manufactured in the best possible way for the environment.

Raw materials sourced from responsibly managed FSC®-certified forests and other controlled sources.

The Key Flag Symbol is a registered collective mark. It demonstrates that the product has been manufactured in Finland.

Rinki - We are implementing our producer responsibility by being part of Rinki that takes care of packaging material recycling in Finland.

Responsible care - We are committed to the International Chamber of Commerce (ICC) Charter on Sustainable Development and are involved in the International Responsible Care Program for the Chemical Industry.

Green Dot - We are taking our producer responsibility by being member of Green Dot in Norway.

A close-up photograph of a hand holding a purple Starbucks Specialty To Go cup. The cup is filled with a frothy coffee beverage. The Starbucks logo and the words "SPECIALTY TO GO" are visible on the cup. In the background, another person is holding a red Starbucks cup, and the scene is set outdoors with green foliage visible.

Hot cups

# Craving for coffee?

## HOT CUPS, LIDS & ACCESSORIES

From freshly brewed coffees to creamy hot chocolates we've got the right products for you. Whether your customers are drinking at home, at work or on the go; our hot cups and lids are the right packaging to support your products, wherever they're enjoyed.

For serving your most delicious brew we have the best cups for you. From our assortment you are able to find the sizes that suit your needs. From espresso to tall latte we have the perfect cup. You can even have the cups printed with your own design. Our single wall cups are best in everyday use and when you need more insulation or want more splendor take a look at our double wall cups.

With a variety of delivery and on the go lids to fit including our new fiber lids as an alternative to plastic, you are good to go. So, whether you are serving in, providing a takeaway or delivery service, we have the perfect solution.

### REASONS YOU'LL LOVE IT

---

**Our cups are produced and used locally  
which reduces emissions from freight.**

# Stylish Specialty.

Our high quality single wall hot cups are available in our Specialty design, plain white or customised with your own print.

# Joy of colours.

The Enjoy double wall hot cups come with a bubbly outer wall that helps to keep the drink warmer for longer.

Pack of cups is a mix of different bright colours.

|                                                                                                                                                          |                                                                                                                                                          |                                                                                                                                                          |

## Hot cups

Made from sustainably  
sourced papers

Fiber based material with a light PE lining as a moisture barrier  
Fibers from sustainably managed Nordic forests  
Virgin fibers that can be recycled up to seven times  
Locally manufactured in Nordic or in Europe.  
Suitable for all kinds of hot drinks

Recyclable\*  
\*Recyclable where facilities exist.

## It's all in the detail.

### Future Smart™ hot cups

#### REASONS YOU'LL LOVE IT

Plant based lining is made from vegetable oils

No fossile based materials used

Design that communicates sustainable values

Suitable for all kinds of hot drinks

\*Recyclable where facilities exist.

### Made from sustainably sourced papers

#### MATERIAL CHECKLIST

Recyclable\* ☒

Renewable board ☒

Made from paper board from sustainably managed forestry sources

#### REASONS YOU'LL LOVE IT

Future Smart paper cups are 100% GMO free and made of material that is fully plant-based and contains no carbon content older than 100 years.

Huhtamaki Future Smart cups are the first 100% renewable paper cups locally manufactured in Finland. The 100% renewable plant based materials used in Future Smart products contain no carbon content older than 100 years as verified by the 14C carbon dating method. Future Smart paper cups are 100% GMO free and made of paperboard from PEFC certified renewable sources.

# Love Nature.

REASONS  
YOU'LL LOVE IT

The Bioware range has been designed to minimize the environmental impact of the products.

## CHARITY WORK

Huhtamaki wants to support the work of the Finnish Natural Heritage Foundation to protect old forests and participates in the foundation’s Ikimetsä campaign.

### REASONS YOU'LL LOVE IT

Captivating forest pattern printed on a renewable plant-based board.

The whole line of products is made from renewable plant-based materials that are from sustainable sources with PEFC-certificate and Swan label.

It's all in  
the detail.

We also manufacture standard black and white sip thru lids for drinking on the go

Cold Cups

# Anyone for a drink?

---

## COLD & REFRESHING

Weather you are serving fizzy drinks or a shake we have a perfect cup for you. Our paper cold cups have a double lining that helps the paper keep its form when serving cold drinks in a warm conditions.

Our plastic tumblers and lids are perfect for a variety of fresh and cooling drinks such as milkshakes, smoothies, frappés and freshly squeezed juices. They are also ideal for serving cold foods to go and delivery options such as pasta, cous cous, fruit salads, breakfast pots and sweet treats.

We offer plastic tumblers made either from aPET or RPET, a material derived from recycled PET bottles. They are recyclable, offer excellent clarity and are also crack resistant.

From different lid options you are able to find a perfect match to your chosen cup.

**REASONS  
YOU'LL LOVE IT**

**Our tumblers and lids are also ideal  
for chilled foods and snacks!**

Our tumblers and lids are  
manufactured to fit perfectly  
together!

When choosing a paper cup instead of a plastic one, we can make a huge difference in the consumption of plastic.

Our water cup is made of paperboard and a plant based PE and it is fully recyclable.

We even have an alternative in our paper water cups that is totally plastic free.

Together let's take a look in our consuming habits and see if there is something we can do to make the earth feel a little bit lighter.

REASONS  
YOU'LL LOVE IT

Fiber plates are light in use but can hold good amount of food without bending.

## HOT FOOD

As consumer demand for hot food to go continues to grow, so do the opportunities for operators across Foodservice, Home Delivery, Grab & Go and Convenience sectors.

The blurring of lines between all these sections of the market, coupled with the introduction or expansion of hot food to go propositions continues to intensify. As takeaway and delivery ranges evolve, retailers are expanding fast, same day home delivery with small baskets or no minimum spend, never has it been more important for prepared meals and food to go to be a major part of their offer.

# Food Containers

# Served in style.

## FOOD CONTAINERS AND TRAYS

Our versatile Kraft, fiber-based food boxes and trays are perfect for hot and cold meals or snacks. For serve over, hot cabinet, takeaway and delivery use. Our widespread material base and manufacturing capabilities means our range comprises different fiber based solutions.

Changes in consumer behaviours and daily routines means the food service landscape is continuously adjusting to meet consumer needs. Subsequently, the increased adoption of delivery continues as consumers order from the comfort of their own home, getting their favourite foods delivered directly to their door.

The right kind of food packaging attracts and makes the meal enjoyable.

REASONS  
YOU'LL LOVE IT

**Fiber based packaging communicates sustainable values.**

# Future Smart™.

## Future forward

Fossil fuel based polyethylene lining is replaced with a plant-based PE coating. No carbon content older than 100 years!

Fiber bowls & lids

Made from sustainably sourced material

REASONS YOU'LL LOVE IT

MATERIAL CHECKLIST

Bowls and lids are light but sturdy

Design features a diamond pattern

Moulded shape prevents leaks

Suitable for delivery and eating in

\*Recyclable where facilities exist.

Recyclable\*

Bagasse

Plastic free

Made from bagasse from sustainably managed sources

## It's all in the detail.

### A CLOSER LOOK AT FIBER BOWLS AND LIDS

Recyclable\*

Plant based

Sustainable material

REASONS YOU'LL LOVE IT

Fiber bowls offer a natural substitute for traditional plastic salad bowls.

PROTECT OUR FUTURE, REDUCE PLASTIC

Packaging is not only a way of delivering, selling and storing food and drinks. Packaging can be a way of making an impact. By choosing a more sustainable alternative for your packaging needs, you can leave your mark. Or not leave one, as your carbon footprint gets smaller by going more green. Our plastic free bagasse fiber packaging offers a sustainable solution to pack and deliver your food to the consumer.

By using our fiber packaging, you can contribute in reducing the use of plastics. Our customers, consumers, communities and the planet need our sustainable packaging solutions more than ever before.

Food containers

Made from recycled material

REASONS YOU'LL LOVE IT

MATERIAL CHECKLIST

Stylish food presentation

Clear, crack resistant and shatterproof

Suitable for pre-prepared, made in store, over the counter and delivery use

Due to clever design, the boxes are stacked excellently, saving space both in stock and on the sales shelf

Recyclable

Sustainable

Made from recycled material

Nearly all types of plastics can be recycled. As a valuable and finite resource, the optimum recovery route for most plastic items at the ‘end-of-life’ is to be recycled, preferably back into a product that can then be recycled again and again.

|                                                                                                                                    |                                                                                                                                    |                                                                                                                                    |

## CUTLERY & ACCESSORIES

Every superhero needs a sidekick and our Great to Go product range includes a collection of cutlery made from sustainable materials.

Your food and meals need quality packaging that delivers convenience and preserves taste. Our range of cutlery includes premium and economical paper and wooden options. Wooden range includes wrapped cutlery, the perfect hygienic, disposable solution for on the go and take-away. Our products mean that you can serve your customers in the same way by using responsible products you can trust. The products in the Great to Go range have been added to provide a variety of solutions which are sustainable alternatives for commonly used food packaging products.

**REASONS  
YOU'LL LOVE IT**

**To complete your service we have cutlery and other accessories available for you.**

# Cutlery gone fiber.

Paper cutlery is light but sturdy and most suitable for salads, soups, pastries, barbecue food and warm beverages\*. The good functionality and smooth feel guarantees a pleasant usability.

# New

We have invested in the future and want to take a bigger role in reducing the use of plastic.

We are starting to produce paper bags in Finland, made of local material in several sizes.

Possibility for printing with own design.

**Available for purchase in Q3**

Now available a fiber based ready meal tray. Natural alternative for plastic trays in two sizes: 170x126x149mm and 200x155x39mm. Contact us for more info!

A woman with dark hair, wearing a white button-down shirt and blue jeans, is sitting on a grey couch. She is smiling and looking down at a beige fiber-based ready meal tray she is holding. She is using a fork to eat from the tray. The tray contains a meal of pasta, vegetables, and meat. In the background, there is a bookshelf filled with books and a yellow armchair.

# Together we can make a difference.

## RECYCLING OUR FLUTED & CARTON BOARD FOOD PACKAGING AND CUPS

The strengths of disposable tableware are their ease, cleanliness and hygiene. By using disposable containers in places where storage space is small and water supply is limited, the benefits of disposable products become clear; scarce water resources are saved and the environment is not unnecessarily burdened with detergents. Safety is also an advantage, as there is no risk of fragmentation.

There are clear, approved recycling guidelines for all materials used in our products, which you can see in the table on the next page. In addition each material has its own logo on the packaging, so recycling is easy.

To aid recycling:

- Remove food waste
  - If the pack has a window, remove, separate and dispose of in general residual waste
  - Flatten the pack and dispose of in recycling waste
- For more information please seek for local guidelines.

## NEW STUDY ON ENVIRONMENTAL IMPACTS OF PACKAGING

Huhtamaki welcome the new scientific insights into the environmental impacts of single-use packaging vs multiple use highlighted in this new LCA, conducted by Ramboll.

| Wood                     | FOR 50   | Pallets        | Reuse, energy recovery                |

Note! Recycling and disposal instructions are indicative, so always follow local waste disposal regulations and the instructions of the collection organizers.

# Creatively customised.

## STAND OUT PACKAGING

Custom printed cup is an important messaging tool, to not only support your brand, but to communicate product, promotional and sustainability messaging, right into the hand of consumers.

Bring your company message, logo, story or campaign into the cup - a product that your customers will be happy to take with them.

- Our in-house design team is highly experienced to support our customers with their artworks.
- Different options for promotion and campaigns are available as mixed printing and QR-codes.
- We have access to a range of materials - from regular boards to plat-based and compostable boards - to produce at our own manufacturing site.
- We are constantly developing new innovative promotional opportunities.

Ask more from your Huhtamaki contact person!

#### CARE

We care for the planet, people, customers and partners

#### DARE

We dare to innovate, grow and have an impact on the future

#### DELIVER

We deliver on our promises, with integrity and as a team

Our values **Care Dare Deliver** help us to make a difference, where it matters.

We believe in **protecting food, people and the planet.**

Our ambition is to be the first choice in **sustainable packaging solutions**, enabling wellbeing and convenience for people around the world.
